PEGASUS^[air]

TWO ALL-ROUNDERS WITH

- **Compact, modular design** allows many different versions
- IP44 splashproof
- For use as a suspended or mobile distribution box
- The mounting dimensions of each component are **optimally aligned** so that a large number of assembly options are available on 6 mounting surfaces.
- **Combination options:** 16A 3p to 32A 5p CEE sockets, a variety of schuko and similiar sockets, fused or non-fused, with integrated air supply etc.
- **Many different fields of application:** from practical construction site distribution box to the distribution box for events, as an overhead energy supply for various working environments in production, as well as in workshops or for domestic use.
- **Entries**
Cable glands and wiring for terminals on cover plates (even for several circuits), CEE flanged plugs, device cabling
- **Outlets**
CEE sockets up to 32A, schuko socets (according to Austrian/German, Belgium/French, Danish, English or Swiss standards), IT sockets (LAN, Tel, ...)

MANY FIELDS OF APPLICATION

PEGASUS BASE

- New developed bow-type handle
 - ergonomic
 - with integrated position detent and cable clip bracket
 - made of high-quality plastic material
- Anti-slip feet with 4 rubber stoppers
 - for firm stability
 - can also be used as coiling option for cable connections

PEGASUS AIR

- **Special anchor handle**
serves as handle when inserting plugs and can also be used to hang up small tools.

PEGASUS [base]

- # Practical, robust and compact distribution box made of shock-resistant polyamide
- # dimensions: LxWxH: 140x140x220mm
- # With plastic carrying handle
- # Max. rated current of 32A
- # Max. 6 mounting surfaces
(4 standard slots, individual placement also possible with universal plates)
