to the future

PC ELECTRIC is a world leader in the development and production of industrial plugs and sockets with an export share of over 80%!

Especially for the hard usage of action forces and relief units, PCE developed a product range with the focus on robust, reliability and a long life cycle .

The new electrical plugs and connectors of the series LUMINA offer next to the high IP rating and long robustness a special feature like reflecting or luminescence elements to insure an additional safety feature during low light and total darkness.

PCE offers a wide range of high quality products for various applications in the electrical installation sector. The range is constantly updated and currently includes approximately 22.000 items.

High level of quality (EN ISO 9001:2008 Certification), flexibility and constant innovation of products and processes are among the most important factors of our successful customer oriented strategy. Speed is top priority! Rapid delivery times and reliability through efficient manufacturing methods and uncomplicated order processing have been appreciated by our customers for years.

Continuous innovation of products and processes paired with the close cooperation with our customers makes PCE a strong, worldwide partner for the professional use of industrial plugs and sockets in electrical installation!

## Safety plugs and sockets with **luminescent** elements

The products offer an IP rating of IP66/IP68 (2bar/2h) and the housing is made of PC/ABS which is especially robust for heavy usage and designed for long lasting.

Plugs and sockets are equipped with luminescent elements in order to be seen in total darkness.

Safety plug and socket 16A / 250V~  
with luminescent elements

IP66/IP68 watertight (2bar/2h)

Long persistent elements  
according **DIN 67510**

Light density      150/22 mcd/m<sup>2</sup>  
Decay time        approx. 35 hours
